

Access Control - By Registration Type

This feature allows you to customize access for different packages offered at an event.

1. Set up the different registration categories within eTouches. Categories can be accessed by going to *eReg Settings* and clicking on the *Categories* tab.

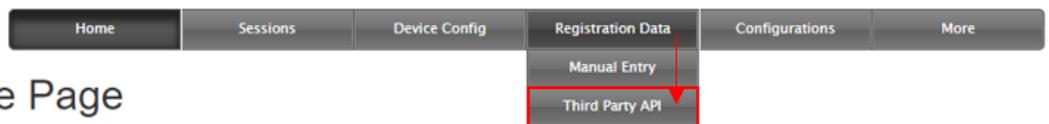

2. Go to [Swiftium.co](https://www.swiftium.co).
3. Log in to enter your Exhibitor Portal.
3. Select the show in question using the *Select a Show* dropdown.
4. Click on *Manage Show Configuration*.

5. Hover over *Registration Data* and click on *Third Party API*.

Management Home Page

6. Using the *Select Third Party Api* dropdown, select *eTouches - Session Access Control by Registration Type*.
7. Enter your *API Key* and *Account ID*, then click *Get Events*.

8. Using the *Select Event* dropdown select the event in question. Then click *Next*.

9. You have the option to overwrite the SetupFile Sessions or use the current SetupFile Sessions. When you have made your choice, click *Next*.

10. Make sure *Use Registration Type* is checked off, then select a registration type (in this example, we clicked on *Staff*).
